

MedX Health Corp. Announces Proposed Extension of Non-Brokered Private Placement Offering

Not for Dissemination in the United States or for Distribution to U.S. Newswire Services

MISSISSAUGA, Ontario--(BUSINESS WIRE)--April 16, 2020--MedX Health Corp. (“**MedX**” or the “**Company**”) (TSX-V: MDX) announced today that, subject to acceptance by the TSX-V the ultimate Closing Date for the non-brokered Private Placement of up to \$2.5 million, which was previously announced on March 6, 2020, will be extended by up to 30 days. The Company has already received Conditional Acceptance for the placement from the TSX-V, but closings have been delayed primarily as a result of Government-imposed restrictions in response to the COVID-19 Pandemic. The proposed placement, to accredited investors, is for the placement of up to 20,833,333 units at \$0.12 per unit (“Unit”). Each Unit will be comprised of One (1) fully paid common share and One (1) Share Purchase Warrant, exercisable to purchase One (1) further Common Share at the price of \$0.20, exercisable for a period of two years from the date of issue. Closing of the Placement, which will take place in tranches, will be subject to receipt of subscriptions and a number of other conditions, including without limitation the receipt of all relevant regulatory and Stock Exchange approvals or acceptances. Qualified Agents may receive commissions in respect of subscriptions introduced by them by way of cash equal to 8% of funds so introduced, and issuance of agent’s warrants (“Agent’s Warrant(s)”) equal in number to 8% of the number of units so subscribed for. Each Agent’s Warrant, which is non-transferable, will be exercisable to acquire one Unit at \$0.12 per Unit, at any time during the period of two years following the Closing.

About MedX

MedX, headquartered in Mississauga, Ontario, is a leading medical device and software company focused on skin cancer with its DermSecure™ telemedicine platform, utilizing its SIAscopy technology. SIAscopy is also imbedded in its products SIAMETRICS™, SIMSYS™, and MoleMate™, which MedX manufactures in its ISO 13485 certified facility. SIAMETRICS™, SIMSYS™, and MoleMate™ include hand-held devices that use patented technology utilizing light and its remittance to view up to 2 mm beneath suspicious moles and lesions in a pain free, non-invasive manner, with its software then creating real-time images for physicians and dermatologists to evaluate all types of moles or lesions within seconds. These products are Health Canada, FDA (US), ARTG and CE cleared for use in Canada, the US, Australia, New Zealand, the European Union and Turkey. MedX also designs, manufactures and distributes quality photobiomodulation therapeutic and dental lasers to provide drug-free and non-invasive treatment of tissue damage and pain. www.medxhealth.com.

This press release does not constitute an offer of any securities for sale. This press release contains certain forward-looking statements within the meaning of applicable Canadian securities legislation. These forward-looking statements involve certain risks and uncertainties that could cause actual results to differ, including, without limitation, the company's limited operating history and history of losses, the inability to successfully obtain further funding, the inability to raise capital on terms acceptable to the company, the inability to compete effectively in the marketplace, the inability to complete the proposed acquisition and such other risks that could cause the actual results to differ materially from those contained in the company's projections or forward-looking statements. All forward looking statements in this press release are based on information available to the company as of the date hereof, and the company undertakes no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of this press release.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this press release.
