

**MedX Health Corp.  
Management's Discussion and Analysis  
For the Three and Six Months Ended June 30, 2020 and 2019**

*This Management's Discussion and Analysis has been prepared based on information available to MedX Health Corp. ("MedX" or the "Company") as at the date of this Report. Management's Discussion and Analysis is a narrative explanation to enable the reader to assess material changes in the financial condition and results of operations of the Company as at and during the three and six months ended June 30, 2020 compared with the three and six months ended June 30, 2019 as contained in the Company's Interim Condensed Consolidated Financial Statements, which have been prepared in accordance with IFRS. This management's discussion and analysis should be read in conjunction with the Company's audited consolidated financial statements and the related notes for the year ended December 31, 2019.*

**Overview and Review of Operations**

MedX Health Corp. was incorporated on April 15, 1999, in Ontario. The Company has two main product lines; SIAscopy™, a medical device technology including the SIAscopy on DermSecure™ telemedicine platform that is used to scan skin for suspicious moles and lesions, and phototherapeutic medical devices, which use light energy in lower-level laser and LED to provide effective treatment offering rapid, drug-free and non-invasive healing in the rehabilitation market for treating pain, tissue damage, swelling and inflammation.

SIAscopy™ is a medical device technology the Company acquired in 2011, that is used to scan suspicious moles and lesions, using specific light wavelengths to penetrate 2mm below the surface of the skin, generating five images of the suspicious mole. The scan is read by a trained physician or dermatologist and a determination is made as to whether the suspicious mole or lesion needs a follow-on appointment, or the patient is deemed clear of follow up. This enables physicians to assess the condition of the moles more effectively and provide more immediate feedback to their patients, improving the quality of care of patients by reducing the need for biopsies, and the resulting pain and potential scarring as well as the anxiety associated with waiting for biopsy results. This technology provides a vastly improved level of certainty for physicians and care for patients.

The SIAscopy™ technology is proprietary to MedX and has been cleared by the FDA in the U.S. and by Health Canada, is CE marked for sale in Europe, with equivalent approval in Brazil, Australia, Turkey and a number of other jurisdictions, totalling 35 countries.

The Company recently launched its SIAscopy on DermSecure™ telemedicine platform. This platform enables the web-based operation of its SIAscopy™ scanning technology and allows the Company to deploy its technology in networks of third-party locations from which patients' mole and lesion scans, along with other relevant patient information can be connected to specialist physicians for remote assessment. SIAscopy on DermSecure™ complies with international standards, including for privacy and security, with specific processes tailored to each jurisdiction. With its own proprietary system, the

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

Company can more aggressively market the technology in a recurring revenue scenario. This project is part of a series of initiatives taken to focus on moving forward with the Company's development roadmap, with the objective of updating its SIAscopy™ hardware and software, making it more scalable and marketable. In addition, the Company is updating the scanner hardware components and related software which will result in higher definition images. It is anticipated that with the roll-out of SIAscopy on DermSecure™ and future innovation releases, the Company will continue to evolve both the hardware and software over a number of years to meet the demands of the potential customer base and improve patient access and care.

SIAscopy on DermSecure™ and MedX's other SIAscopy™ products are sold world-wide. The Company is already working with groups internationally to market SIAscopy on DermSecure™ in a number of countries. MedX is also initiating programs in selected South American and European countries and in Canada while pursuing other opportunities in other markets including the United States.

The Company's phototherapeutic products have been available in the market for many years, with a strong reputation for quality and reliability. The Company has sold thousands of its products to practitioners in clinics, academic facilities, hospitals, long-term care facilities, athletes and sports teams. MedX's therapeutic light products are currently sold in Canada and the United States. The Company partners with medical device distributors to sell its products. The markets in which the Company sells these products are highly competitive, characterized by pricing pressure and multiple competitive products. These products are US FDA and Health Canada cleared. The Company updates its products to remain competitive in the market and continues to try to increase its market share.

The Company's SIAscopy™ and therapeutic light products are produced in an ISO 13485, CMDCAS and MDSAP certified manufacturing and testing facility in Mississauga, Ontario.

In June 2020, the Company's President and CEO, Scott Spearn, who had been in that role since mid-2018, retired from his role, including that as a Director. Rob von der Porten, Chairman of the Board, who previously had been the Company's President and CEO, has taken on the role of Interim Executive Chairman while the search for a new CEO is undertaken. The Company has a Scientific Medical Advisory Board that includes a number of internationally recognized individuals, who are specialists in various areas related to skin disorders and cancer, that advise the Company as it continues the development of its technology and platform and considers market entry strategies for its skin related product portfolio.

The Company has experienced significant issues with respect to a lack of funding and cash flow and has experienced losses and negative working capital since its inception. The very competitive nature of the market for therapeutic laser products, and the time it has taken to develop the appropriate product offerings and marketing strategies for its

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

SIAscopy™ technology hampered the ability of the Company to generate adequate sales and cash flow. In addition, during the last three years, the Company has invested in developing a telemedicine software platform, and as a result, the Company has not reached a level of profitability that would allow it to market itself aggressively, as is required in the market. The Company has begun a process to build the awareness and benefits of its SIAscopy™ on DermSecure™ telemedicine platform locally and internationally, which should increase revenues going forward and which may improve the likelihood of raising additional capital.

The Company has undertaken a number of financing initiatives in the past to finance the development of its products to provide cash flow for operations while it builds its revenue base. During 2019 and to date in 2020, the Company has raised net proceeds of \$4,276,896 from private placements of equity.

To date in 2020, the Company has raised net proceeds of \$3,092,322 from private placements, summarized as follows:

Date	# of Units	Net Proceeds	Warrants Issued	Warrant Term	Warrant Price
January 30	1,485,000	\$ 160,812	1,569,000	2 Years	\$ 0.20
March 4	7,459,139	814,733	7,965,139	2 Years	\$ 0.20

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

During the year ended December 31, 2019, the company was also advanced \$422,000 of demand loans by related parties and repaid \$270,000 of such loans. All such loans have been repaid in 2020.

The recent coronavirus (COVID-19) pandemic has impacted and could further impact the Company's operations. A majority of the Company's staff are working remotely. The Company has experienced a significant decrease in orders and revenue from its laser and light products during the first half of 2020, as a large proportion of the users of these products (rehabilitation and chiropractic clinics) were closed for extended periods. It is unknown how the short to medium-term demand will change as clinics re-open. The Company has not been significantly impacted to date with respect to the supply of inventory, and the Company has been able to raise capital during the period. Given the uncertainty with respect to the timing and level of recovery from the pandemic on a global basis, the Company's ability to market its products through direct contact with customers may be difficult, and there remains uncertainty around the duration and its broader impact. The Company received an interest-free loan of \$40,000 under the Canada Emergency Business Account Program and has received \$123,909 to date in 2020 under the Canada Emergency Wage Subsidy.

**Review of Operating Results**

**Three Months Ended June 30, 2020 and 2019**

*Revenue -*

Revenue of \$69,452 for the three months ended June 30, 2020 was \$189,656, or 73.2% lower than revenue of \$259,108 for the three months ended June 30, 2019, resulting from a reduction in sales of laser products.

Revenues from MedX's therapeutic laser products of \$38,423 for the three months ended June 30, 2020 were \$194,972, or 83.5% lower than \$233,395 in the 2019 period.

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

Revenues were significantly impacted by COVID-19 during the quarter, as many distributors of the Company's products and their customer base of rehabilitation clinics were closed for most of the period. There are indications of an increase in demand for the products in the third quarter.

Revenues from the Company's SIAscopy™ product line were \$31,029 for the three months ended June 30, 2020, an increase of \$5,316 from revenues of \$25,713 for the prior year three month period.

*Cost of sales -*

Cost of sales of \$43,295 for the three months ended June 30, 2020 was \$70,526 or 62.0% lower than cost of sales of \$113,821 for the three months ended June 30, 2019, as a result of lower revenue. Cost of sales as a percent of sales was 62.3% for the three-month period compared with 43.9% for the three-months ended June 30, 2019. Costs of sales were a higher percentage of revenues in 2020 as a large portion of the production costs are fixed in nature impacting the ratio when revenues are low.

*Gross profit -*

Gross profit for the three months ended June 30, 2020 was \$26,157, a decrease of \$119,130 from gross profit of \$145,287 for the three months ended June 30, 2019, with the decrease resulting from lower sales in 2020 and a lower gross margin in 2020. The gross margin for the three-months ended June 30, 2020 was 37.7% of sales versus 56.1% of sales in the prior year.

*Selling, general and administrative expenses –*

Administrative expenses of \$538,711 for the three months ended June 30, 2020 were \$25,007, or 4.4% lower than expenses of \$563,718 for the three months ended June 30, 2019. Although the Company experienced higher public company related costs in the quarter, this was more than offset by staff cost reductions and the impact of approximately \$73,000 of wage subsidies received during the quarter under the government COVID-19 relief programs.

*Product and software development –*

Product and software development expenses of \$72,440 represent expenditures with respect to on-going development of the Company's SIAscopy on DermSecure™ telemedicine platform. The costs during the three-month period ended June 30, 2020 were \$144,494 lower than the \$216,934 of expenses in the second quarter of 2019. The Company reduced expenditures on the project in the second half of 2019 and earlier in 2020 while conserving cash, and experienced higher costs for the latest three month period when compared with the first quarter.

*Share-based compensation –*

Share-based compensation expense for the three months ended June 30, 2020 of \$86,946 is a result of share options that were granted during the period. The \$18,493 of

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

expense in the 2019 period related to options granted in 2018 that vested during the 2019 three-month period.

*Interest expense –*

Interest expense of \$17,420 for the three months ended June 30, 2020 was \$11,650 lower than interest expense of \$29,070 for three months ended June 30, 2019. The Company's convertible loan was fully accreted in 2019, and the reduction of accretion expense in the 2020 three-month period as well as lower debt levels resulted in the decrease.

*Foreign exchange loss –*

The Company experienced a foreign exchange loss of \$2,001 for the three months ended June 30, 2020, compared with a loss of \$3,511 for the 2019 three-month period. The loss is related to the settlement of and translation of net foreign denominated working capital balances during the respective quarters.

*Depreciation of property, equipment and right of use asset –*

Depreciation of \$10,897 for the three months ended June 30, 2020 is a decrease from the depreciation for the prior year three-month period.

*Amortization of intangibles –*

Amortization of \$5,954 for the three months ended June 30, 2020 was lower than recorded in the prior year period and in previous quarters as the asset has now been fully amortized. The intangibles are related to the SIAscopy™ product line.

*Net loss for the period –*

The net loss of \$708,212 for the three months ended June 30, 2020 was \$12,930 lower than the loss of \$721,142 for the three months ended June 30, 2019. Reductions in administrative costs and product and software development expenditures assisted in lowering the impact of the decrease in sales during the period, and the negative impact of the higher non-cash share-based compensation expenses during the period.

**Six Months Ended June 30, 2020 and 2019**

*Revenue -*

Revenue of \$164,996 for the six months ended June 30, 2020 was \$278,913, or 62.8% lower than revenue of \$443,909 for the six months ended June 30, 2019, resulting from a reduction in sales of laser products.

Revenues from MedX's therapeutic laser products of \$112,189 for the six months ended June 30, 2020 were \$284,444, or 71.7% lower than \$396,633 in the 2019 six month period. Revenues were significantly impacted by COVID-19 during the later part of the first quarter and during the second quarter of 2020, as most North American rehabilitation clinics, who are key users of the products, were closed for a significant part

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

of the six month period. The level of customer orders has improved in the third quarter to date.

Revenues from the Company's SIAscopy™ product line were \$52,807 for the six months ended June 30, 2020, an increase of \$5,531, or 11.7% from revenues of \$47,276 for the prior year six month period.

*Cost of sales -*

Cost of sales of \$103,812 for the six months ended June 30, 2020 was \$104,369 or 50.1% lower than cost of sales of \$208,181 for the six months ended June 30, 2019, as a result of lower revenue. Cost of sales as a percent of sales was 62.9% for the six-month period compared with 46.9% for the six-months ended June 30, 2019. Costs of sales were a higher percentage of revenues in 2020 as a result of lower prices during the period and the impact of relatively fixed costs relating to production during a period of low sales.

*Gross profit -*

Gross profit for the six months ended June 30, 2020 was \$61,184, a decrease of \$174,544 from gross profit of \$235,728 for the six months ended June 30, 2019, with the decrease resulting from lower sales in 2020 and the impact of lower margins in 2020. The gross margin for the six-months ended June 30, 2020 was 37.1% of sales versus 53.1% of sales in the prior year.

*Selling, general and administrative expenses –*

Administrative expenses of \$1,111,541 for the six months ended June 30, 2020 were \$1,982, or marginally lower than expenses of \$1,113,523 for the six months ended June 30, 2019. Administrative cost reductions and the benefit of the wage subsidies received under the government COVID-19 measures were offset by higher public company related costs.

*Product and software development –*

Product and software development expenses of \$118,790 for the six-month period were \$266,973 lower than the \$385,763 of expenses in the first half of 2019. The development program activity was higher in 2019, and reduced since that period, in part as a result of lower cash available.

*Share-based compensation –*

Non-cash share-based compensation expense for the six months ended June 30, 2020 of \$86,946 is a result of share options that were granted during the period. The \$104,681 of expense in the 2019 period related to options granted in 2018 that vested during the first half of 2019.

*Interest expense –*

Interest expense of \$28,718 for the six months ended June 30, 2020 was \$29,604 lower than interest expense of \$58,322 for six months ended June 30, 2019. The Company's

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

convertible loan was fully accreted in 2019, and the reduction of accretion expense was the primary factor for the decrease.

*Loss on debt settlement –*

The Company incurred a non-cash loss of \$107,410 on the settlement of debt in 2020, whereby the Company issued 3,103,878 Units (each unit consisting of one share and one warrant) to a vendor to settle \$372,371 of amounts owing to the vendor, and the value of the shares and warrants on the closing date was determined to be \$479,781, based on the closing price of the shares and the Black-Scholes valuation of the warrants.

*Foreign exchange loss –*

The Company experienced a foreign exchange loss of \$5,883 for the six months ended June 30, 2020, compared with a loss of \$13,275 for the 2019 six-month period. The loss is related to the settlement of and translation of net foreign denominated working capital balances during the respective quarters, which balances are lower in 2020.

*Depreciation of property, equipment and right of use asset –*

Depreciation of \$21,795 for the six months ended June 30, 2020 is a minor decrease from the depreciation for the prior year six-month period.

*Amortization of intangibles –*

Amortization of \$28,499 for the six months ended June 30, 2020 was lower than in the prior year period, as the amortization period was completed during the three-month period, with the intangible assets now fully amortized.

*Net loss for the period –*

The net loss of \$1,448,398 for the six months ended June 30, 2020 was \$60,845 lower than the loss of \$1,509,243 for the six months ended June 30, 2019. While the Company experienced a significant decrease in gross margin resulting from lower revenues and profit was also lowered from a non-cash debt settlement expense during the period, the product and software development reductions to date in 2020 more than offset this impact.

**Liquidity and Capital Resources**

The Company had a negative working capital balance of \$927,703 as of June 30, 2020, compared with a working capital deficiency of \$2,950,929 as of December 31, 2019, and an accumulated deficit of \$34,060,862 and a shareholders' deficiency of \$930,994 as of June 30, 2020. The improvement in the working capital position during the first half of 2020 is attributable to the capital raised during the period and the settlement of debt, offset in part by the operating loss in the period. Despite raising additional capital in 2019 and to date in 2020, the current financial conditions for the Company are such that there is an existence of uncertainties that may cast significant doubt about the

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

Company's ability to continue as a going concern. The Company continues to review alternatives for additional financing.

The Company's ability to continue as a going concern is dependent upon achieving a profitable level of operations and obtaining additional financing, neither of which is assured. The Company has been able to raise capital to continue to market its products, including raising net proceeds of \$4,276,896 from private placements of equity during 2019 and to date in 2020. The Company's interim condensed consolidated financial statements do not give effect to any adjustments which might be necessary should the Company be unable to continue as a going concern and be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying consolidated financial statements. These adjustments could be material.

Due to the negative working capital and negative cash from operations, the Company manages its cash resources and expenditure levels carefully to ensure that risks are minimized, while focusing on developing and marketing its products and growing its revenues and raising additional capital. The Company has, and will continue where possible to reduce its liabilities, and its recurring cost base to conserve cash.

During the six months ended June 30, 2020, the Company raised net proceeds of \$2,804,322 from private placements and in 2019, the Company raised net proceeds of \$1,184,574 from private placements. The details of these private placements are described below in the Share Capital section below.

During periods of reduced cash flow, the Company been able to access cash by entering into unsecured short-term demand loans with related parties in order to ensure operating cash flow, which amounts are then repaid on completion of raising more permanent equity capital. As the Company was able to raise a significant amount of equity during 2019 and 2020, all of the outstanding demand loans from related parties have been repaid as of June 30, 2020. During the year ended December 31, 2019, the Company received \$422,000 of demand loans from related parties and repaid \$270,000 of such loans. In 2020, \$45,000 was advanced by related parties, and \$297,000 of loans, representing the outstanding balances, were repaid.

As of June 30, 2020, the Company's capital resources consist of the following:

*Accounts payable and accrued liabilities –*

The Company had \$1,261,264 of accounts payable and accrued liabilities as of June 30, 2020, a decrease of \$1,211,313 from \$2,472,577 as of December 31, 2019. The was a significant reduction in vendor payable balances, including the settlement of \$372,071 owing to a vendor through the issue of shares and warrants. In addition, a further \$102,761 of the decrease resulted from settling amounts owing through subscriptions in a private placement. The June 30, 2020 balance consists of trade payables (\$89,138), amounts owing to staff, management and directors for accrued or unpaid compensation

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

and fees (\$157,748), amounts owing and accrued to governments primarily by an inactive subsidiary for unpaid payroll withholdings, sales and other taxes (\$538,158) and other accrued liabilities (\$476,220).

*Demand loans –*

As of June 30, 2020, all previous unsecured demand loans due to related parties have been repaid. The loans bore interest at 10% per annum, payable at the time of repayment. Advances of \$45,000 were made during the six months ended June 30, 2020 (with fees of \$2,250 related to these advances) and \$297,000 of repayments were made to pay off the balances.

As of December 31, 2019, there were \$252,000 of unsecured demand loans due to related parties. The loans were accruing interest at 10% per annum, payable at the time of repayment. A total of \$422,000 of advances were made during 2019 and \$270,000 of payments were made, and fees of \$21,350 were paid related to these advances. During 2019, a \$50,000 demand loan due to a corporation controlled by a Director at the end of 2018 was repaid and \$102,000 of demand loans were advanced by this lender, on the same terms. As of December 31, 2019, \$52,000 of loans were due to this lender. A total of \$320,000 of unsecured advances were made by another Director during 2019, of which \$220,000 were repaid during 2019 and \$100,000 was due as of December 31, 2019.

*Lease liability -*

The Company leases premises consisting of its office and manufacturing facilities. On adoption of IFRS 16 as of January 1, 2019, a liability of \$60,034 was established, representing the lease payments of \$38,828 in 2019 and \$26,072 in 2020, discounted using an incremental borrowing rate of 10.0%. The lease does not include extension options. The balance of the liability as at June 30, 2020 is \$7,014.

*Convertible Debt -*

The Convertible debt consists of a \$500,000 loan with a party that is related to a Director of the Company, which was due on December 31, 2019, and considered as due on demand, bearing interest at 8% per annum, paid monthly. The loan is convertible, in whole or part, at any time into common shares of the Company at \$0.20 per share. The debt is secured by a general security agreement covering all of the Company's assets.

*Long-term debt – Canada Emergency Business Account (CEBA) -*

During 2020, the Company received \$40,000 under a line of credit from the Government of Canada CEBA program, administered through the Company's bank. The loan is non-interest bearing until December 31, 2022, after which interest of 5% is payable. If the loan is repaid before December 31, 2022, 25% of the amount repaid will be forgiven.

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

*Share Capital -*

The Company had 172,720,317 shares outstanding as of June 30, 2020:

	Number of shares	Stated Capital
Outstanding at December 31, 2018	135,053,901	\$ 19,453,957
Issued for cash	8,532,527	833,190
Outstanding at December 31, 2019	143,586,428	20,287,147
Issued for cash	25,939,611	2,040,735
Issued for services	90,400	13,560
Issued on debt settlement	3,103,878	372,465
Outstanding at June 30, 2020	172,720,317	\$ 22,713,907

During the six months ended June 30, 2020, the Company raised net proceeds of \$2,804,322 from private placements, summarized as follows:

Date	# of Units	Unit Price	Gross Proceeds	Issue Costs	Net Proceeds	Broker Warrants	Allocation to Shares	Allocation to Warrants
January 30	1,485,000	\$ 0.12	\$ 178,200	\$ 17,388	\$ 160,812	\$ 8,759	\$ 114,259	\$ 46,553
March 4	7,459,139	\$ 0.12	895,097	80,364	814,733	43,530	598,958	215,775
March 5	2,000,000	\$ 0.12	240,000	19,200	220,800	-	171,519	49,281
April 22	8,749,673	\$ 0.12	1,049,961	97,100	952,861	35,365	690,939	261,922
April 27	1,158,333	\$ 0.12	139,000	8,000	131,000	-	97,875	33,125
April 29	200,000	\$ 0.12	24,000	1,920	22,080	-	16,496	5,584
May 13	4,887,466	\$ 0.12	586,496	84,460	502,036	27,932	350,689	151,347
	25,939,611		\$ 3,112,754	\$ 308,432	\$ 2,804,322	\$ 115,586	\$ 2,040,735	\$ 763,587

With respect to the private placements completed to date in 2020, in each case, the placement consisted of the sale of the number of Units indicated at the Unit Price, and each Unit consisted of one Common share and one Common share purchase warrant ("Warrant"). Each Warrant will be exercisable to acquire one Common share at any time for a period of two years from the respective closing date, at an exercise price of \$0.20.

In addition, in connection with the placements, the Company issued 84,000, 506,000, 342,000 and 227,760 Broker warrants in connection with the January 30, 2020, March 4, 2020, April 22, 2020 and May 13, 2020 placements, respectively. The Broker Warrants issued in connection with the placements are exercisable for a period of two years, to acquire a unit at \$0.12, comprising a Share and a Warrant exercisable for two years at \$0.20.

In accounting for the private placement transactions, at the time of each closing, the Company allocated the gross proceeds between the shares and the warrants issued, based on the relative value of the components. The value of the shares was based on the closing trading value of the Company's shares on each closing date. The value of the warrants was based on a calculation using the Black-Scholes model, as of the date

**MedX Health Corp.**  
**Management’s Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

of closing. Cash related issue costs were allocated in the same manner as the proceeds, reducing the amounts recorded as share capital and warrants. With respect to the Broker warrants issued, the value of the warrants was determined in the same manner as the common share warrants, and were treated similar to cash issue costs, as a reduction of the amounts recorded as share capital and warrants. See “Warrants” below with respect to the calculation of the value of the warrants and Broker warrants.

During 2019, the Company raised net proceeds of \$1,184,574 from private placements, summarized as follows:

Date	# of Units	Unit Price	Gross Proceeds	Issue Costs	Net Proceeds	Broker Warrants	Allocation to Shares	Allocation to Warrants
January 28	2,962,500	\$ 0.16	\$ 474,000	\$ 11,474	\$ 462,526	\$ -	\$ 308,493	\$ 154,033
April 26	1,766,250	\$ 0.16	282,600	24,891	257,709	10,099	181,040	76,669
May 23	850,000	\$ 0.16	136,000	3,930	132,070	-	95,529	36,541
August 29	1,286,111	\$ 0.12	154,333	11,581	142,752	4,297	106,044	36,708
November 4	1,251,000	\$ 0.12	150,120	9,103	141,017	3,387	104,964	36,053
November 22	416,666	\$ 0.12	50,000	1,500	48,500	-	37,120	11,380
	8,532,527		\$ 1,247,053	\$ 62,479	\$ 1,184,574	\$ 17,783	\$ 833,190	\$ 351,384

With respect to the private placements completed in 2019, in each case, the placement consisted of the sale of the number of Units indicated at the Unit Price, and each Unit consisted of one Common share and one Common share purchase warrant (“Warrant”). The terms of the Warrants issued were as follows:

- January 28, 2019 placement - each warrant will be exercisable to acquire one Common share at any time for a period of three years, at an exercise price of \$0.35.
- April 26, 2019 placement - each warrant will be exercisable to acquire one Common share at any time for a period of two years, at an exercise price of \$0.25. The 79,350 Broker Warrants issued in connection with the placement are exercisable for a period of two years, to acquire a unit at \$0.16, comprising a Share and a Warrant exercisable until April 26, 2021, at \$0.25.
- May 23, 2019 placement - each warrant will be exercisable to acquire one Common share at any time for a period of two years, at an exercise price of \$0.25.
- August 29, 2019, November 4, 2019 and November 22, 2019 placements – each warrant will be exercisable to acquire one Common share at any time for a period of two years, at an exercise price of \$0.20.

The 58,000 and 42,800 Broker Warrants issued in connection with the August 29, 2020 and November 4, 2019 placements, respectively are exercisable for a period of two years, to acquire a unit at \$0.12, comprising a Share and a Warrant exercisable at \$0.20.

**MedX Health Corp.**  
**Management’s Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

On March 5, 2020, the Company settled a portion of amounts owing to a vendor, settling \$372,071 of debt owed to the vendor by issuing to it 3,103,878 Units, each Unit consisting of one Common share and one Common share purchase warrant (“Warrant”). Each Warrant will be exercisable to acquire one Common share at any time for a period of two years, at an exercise price of \$0.20. In accounting for the settlement, the shares issued were valued based on the closing price of the shares on the closing date of \$0.12, or \$372,465 and the warrants were valued at \$107,016, estimated to be \$0.03 per warrant using the Black-Scholes pricing model (historic volatility of 79%, 0.92% risk-free interest rate and no expected dividends), resulting in a loss of \$107,410. This transaction enabled the Company to reduce its current liabilities and conserve cash raised from its private placements to be used to grow the business going forward.

In addition, during the six-months ended June 30, 2020, the Company issued 90,400 shares in connection with an agreement signed in 2020 related to marketing services being provided to the Company. Under the agreement, the Company will issue shares for services in exchange for \$60,000 of the services over a period of one year. The shares issued in the period represent payment of the first \$13,560 of services (including HST), at \$0.15 per share.

*Stock options –*

On November 5, 2018, at an Annual and Special Meeting of Shareholders, shareholders approved an amendment to the Company’s 2014 Incentive Stock Option Plan to increase the number of shares available under the plan from 21,200,000 to 26,000,000.

Under the terms of the plan, directors, officers, employees and consultants, subject to certain conditions, may be granted options to purchase common shares of the Company. As at June 30, 2020 there were 18,265,000 options that have been granted and are outstanding, with 7,735,000 options available to be granted under the plan. Options generally expire after five years, with vesting provisions stated in the plan.

Activity in the Company’s stock option plan for the six months ended June 30, 2020 and for the year ended December 31, 2019 is summarized as follows:

	<b>Number of Options</b>	<b>Weighted- Average Exercise Price \$</b>
Outstanding, January 1, 2019	18,100,000	0.17
Granted	6,990,000	0.17
Expired/forfeited	(7,325,000)	0.10
Outstanding, December 31, 2019	<b>17,765,000</b>	<b>0.20</b>
Granted	1,000,000	0.18
Expired/forfeited	(500,000)	0.25
Outstanding, June 30, 2020	<b>18,265,000</b>	<b>0.19</b>

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

The outstanding options have exercise prices in the range of \$0.10 and \$0.25, an average remaining life of 3.0 years, and a weighted average exercise price of \$0.19, and as of June 30, 2020, all of the options are exercisable.

On each of April 15 and April 20, 2020, the Company granted 500,000 share options under the Company's Stock Option Plan to consultants, which vested on the grant date. The options have an exercise price of \$0.18 and \$0.17 per share, expiring three and five years from the date of issue, respectively. The options were valued at \$86,946, which has been expensed in 2020. The value was determined using the Black-Scholes option pricing model based on a risk-free interest rate of 1.05% and 1.50%, volatility of 89% and 115% (based on historical stock price volatility), expected life of three and five years, respectively, and no expected dividend yield.

On December 31, 2019, the Company granted 5,990,000 share options under the Company's Stock Option Plan to members of the Board of Directors, management, employees and consultants. The options have an exercise price of \$0.17 per share, expire five years from the date of issue, and were vested as of the grant date. The options were valued at \$594,862, which was expensed in 2019. The value was determined using the Black-Scholes option pricing model based on a risk-free interest rate of 1.68%, volatility of 111% based on historical stock price volatility, expected life of five years, and no expected dividend yield.

On September 30, 2019, the Company granted 1,000,000 share options under the Company's Stock Option Plan to a member of management and the Board of Directors. The options, which are vested as of December 31, 2019, have an exercise price of \$0.16 per share and expire four years from the date of issue. The options were valued at \$69,677, which was expensed in 2019. The value was determined using the Black-Scholes option pricing model based on a risk-free interest rate of 1.90%, volatility of 107% based on historical stock price volatility, expected life of four years, and no expected dividend yield.

*Warrants –*

The Company has issued subscriber warrants in connection with share offerings, and also has issued broker warrants in connection with certain offerings.

The number of warrants and Broker warrants issued in connections with the private placements completed in 2020, as well as the assumptions used in the Black-Scholes calculations are summarized as follows:

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

Date	# of Warrants	Exercise Period (Yrs)	Exercise Price	# of Broker Warrants	Share Price	Interest Rate	Volatility	Warrant Value
January 30	1,485,000	2	\$ 0.20	84,000	\$ 0.130	1.47%	83%	\$ 0.04
March 4	7,459,139	2	\$ 0.20	506,000	\$ 0.120	0.92%	79%	\$ 0.03
March 5	2,000,000	2	\$ 0.20	-	\$ 0.120	0.92%	79%	\$ 0.03
April 22	8,749,673	2	\$ 0.20	342,000	\$ 0.130	0.33%	83%	\$ 0.04
April 27	1,158,333	2	\$ 0.20	-	\$ 0.135	0.32%	83%	\$ 0.05
April 29	200,000	2	\$ 0.20	-	\$ 0.135	0.32%	83%	\$ 0.05
May 13	4,887,466	2	\$ 0.20	227,760	\$ 0.145	0.28%	82%	\$ 0.05

The Broker Warrants issued in connection with the placements in 2020 are exercisable for a period of two years from the respective issue date, to acquire a unit at \$0.12, comprising a Share and a Warrant exercisable for two years at \$0.20.

During 2020, 6,559,000 subscriber warrants, with an exercise price of \$0.20, and 370,365 Broker warrants expired. The \$350,437 value originally allocated to the warrants was reclassified to Contributed surplus.

The number of warrants and Broker warrants issued in connections with the private placements completed in 2019, as well as the assumptions used in the Black-Scholes calculations are summarized as follows:

Date	# of Warrants	Exercise Period (Yrs)	Exercise Price	# of Broker Warrants	Share Price	Interest Rate	Volatility	Warrant Value
January 28	2,962,500	3	\$ 0.35	-	\$ 0.150	1.50%	108%	\$ 0.07
April 26	1,766,250	2	\$ 0.25	79,350	\$ 0.150	1.45%	93%	\$ 0.06
May 23	850,000	2	\$ 0.25	-	\$ 0.150	1.45%	94%	\$ 0.06
August 29	1,286,111	2	\$ 0.20	58,000	\$ 0.100	1.58%	90%	\$ 0.03
November 4	1,251,000	2	\$ 0.20	42,800	\$ 0.105	1.59%	89%	\$ 0.03
November 22	416,666	2	\$ 0.20	-	\$ 0.105	1.60%	88%	\$ 0.03

The 79,350 Broker Warrants issued in connection with the April 26, 2019 placement are exercisable for a period of two years, to acquire a unit at \$0.16, comprising a Share and a Warrant exercisable at \$0.25. The 58,000 and 42,800 Broker Warrants issued in connection with the August 29, 2020 and November 4, 2019 placements, respectively are exercisable for a period of two years, to acquire a unit at \$0.12, comprising a Share and a Warrant exercisable at \$0.20.

During 2019, 18,415,653 warrants, with an exercise price of \$0.14 relating to private placements in 2016 expired. The \$499,280 value originally allocated to the warrants (net of amounts previously reclassified) was reclassified to Contributed surplus.

**MedX Health Corp.**  
**Management’s Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

**Capital Resources –**

The Company made relatively low levels of capital expenditures until late in 2017 when it began projects to update its technology and develop a telemedicine platform. Spending in this regard was significant in 2018 and the first half of 2019, and then reduced since that time. Expenditures will be reduced somewhat going forward, although the Company continues to develop its products. The Company will continue to update the technology for its SIAscopy on DermSecure™ telemedicine platform and its SIAscopy™ units and software, which could involve a significant level of expenditures, which could be undertaken as cash is available.

The Company defines its managed capital as the total of demand loans, lease liabilities, convertible debt, long-term debt and shareholders’ deficiency including share capital, warrants, the equity portion of convertible debt, contributed surplus and deficit. As at June 30, 2020, total managed capital was (\$383,980) (December 31, 2019 - (\$2,089,235)).

The Company manages its capital structure within guidelines approved by the Board of Directors. The Company makes adjustments to its capital structure based on changes in economic conditions and the Company’s planned requirements. The Company has the ability to adjust its capital structure by issuing new equity or debt, selling assets to reduce debt, controlling the amount it distributes to shareholders, and making adjustments to its capital expenditure program.

There have been no changes in the Company’s approach to capital management during 2019 or 2020. The Company is not subject to externally imposed capital restrictions.

**Summary of Quarterly Results**

*Amounts in \$000's, except per share amounts*

Quarter Ended	June 30 2020	March 31 2020	December 31 2019	September 30 2019	June 30 2019	March 31 2019	December 31 2018	September 30 2018
Revenues	\$69	\$96	\$181	\$235	\$259	\$185	\$275	\$180
Comprehensive Income/(Loss)	(\$708)	(\$740)	(\$1,189)	(\$578)	(\$721)	(\$788)	(\$1,015)	(\$920)
Income (loss) per share	(\$0.00)	(\$0.00)	(\$0.00)	(\$0.00)	(\$0.01)	(\$0.01)	(\$0.01)	(\$0.01)

As the foregoing schedule indicates, results over the past eight quarters have fluctuated, driven in part by revenues. As the Company is building its revenue through several distribution channels, sales can fluctuate by quarter, depending on the timing of orders. Periods with higher losses have resulted in part from the product development costs being incurred and non-cash share-based compensation.

**Contractual Obligations**

The Company leases space for its office and manufacturing facility, entering into a five-year lease in 2015, with minimum lease obligations of \$26,072 in 2020.

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

**Significant Accounting Judgments and Estimates**

The preparation of the Company's consolidated financial statements requires management to make estimates, judgements and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and reported amount of revenues and expenses during the reporting period. By their nature, these estimates are subject to measurement uncertainty and are reviewed periodically and adjustments, if necessary, are made in the period in which they are identified. Actual results could differ from those estimates.

Judgements:

Going concern – The preparation of the consolidated financial statements requires management to make judgements regarding its ability to continue as a going concern as discussed in Note 1 of the Company's consolidated financial statements.

Revenue recognition – Management makes judgements with respect to the point of time at which revenue is recognized, and whether the revenue will be recognized at point of time or over a period of time, as discussed in Note 2 – Revenue Recognition of the Company's annual consolidated financial statements.

Estimates:

Deferred revenue – Deferred revenue is estimated based on the period over which revenue is recognized and an estimate of the portion of the amount of revenue related to the performance obligation recognized over time.

Allowance for doubtful accounts – Management estimates the collectability of specific accounts and records an appropriate allowance for doubtful accounts, as discussed in Note 13 – Credit Risk of the Company's consolidated financial statements.

Inventory Valuation – Management assesses the net realizable value based on a review of estimated selling prices net of costs to make the sale, taking into account current market conditions and historic experience.

Other estimates – Estimates are also used in determining, but are not limited to, share-based compensation, warrants, the useful lives of assets, the valuation of convertible loans, the equity component of convertible loans, the valuation of intangibles and deferred income taxes, which are disclosed in Note 2 and their respective notes in the annual consolidated financial statements.

For the Three and Six Months Ended June 30, 2020 and 2019**

**Recent Accounting Pronouncements**

At the date of authorization of these interim condensed consolidated financial statements, the IASB and International Financial Reporting Interpretations Committee ("IFRIC") have not issued any new or revised Standards and Interpretations that will become effective in future years.

**Financial Instruments**

**Fair Value Measurement**

The accounting guidance for fair value measurements prioritizes the inputs used in measuring fair value into the following hierarchy:

**Level 1** – Quoted prices (unadjusted) in active markets for identical assets or liabilities;

**Level 2** – Inputs other than quoted prices included within Level 1 that are directly or indirectly observable;

**Level 3** – Unobservable inputs in which little or no market activity exists, therefore requiring an entity to develop its own assumptions about the assumptions that market participants would use in pricing.

The Company has classified its consolidated financial instruments in accordance with IFRS into various categories as described in its accounting policies. A disclosure of exposures to risk with respect to financial instruments and the potential impact is described below.

The carrying value of accounts receivable, accounts payable and accrued liabilities, and demand loans approximates fair value due to the relatively short-term maturity of these financial instruments. Convertible debt was initially recognized at fair value and was categorized as level 2. Subsequent to initial recognition it is carried at amortized cost.

The main risks the Company's financial instruments are exposed to are credit risk, interest rate risk, foreign currency risk and liquidity risk, each of which is discussed below.

*Credit Risk -*

Credit risk is the risk of financial loss if a counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to risk on its trade receivables balances. The risk for the Company is reduced, as for a majority of its revenue, individual transactions are relatively small, are normally to established customers, and often include a deposit for a large portion of the sale or payment in full prior to shipment.

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

The Company measures the loss allowance at an amount equal to the lifetime ECL that results from possible default events over the expected life of accounts receivables, using a simplified impairment model estimating losses with a provision matrix to measure the lifetime ECL. With respect to the Company's phototherapeutic laser business, the Company has experienced minimal losses, and based on the provision matrix developed where a provision is not considered necessary unless account balances exceed 180 days, there is currently no provision. With respect to sales of the Company's SIAscopy™ products, where new markets are being developed, the Company reviews individual balances, and as a result recorded a provision as of June 30, 2020 of \$24,268 (December 31, 2019 - \$36,504).

The Company maintains cash balances with Canadian commercial banks. As such, the Company believes its credit risk is minimal on cash balances.

*Interest Rate Risk -*

The Company currently has no exposure to risk with respect to interest rate fluctuations, as its interest-bearing debt is at a fixed rate of interest. The Company may increase debt levels depending on the nature of the financing in the future.

*Foreign Currency Risk -*

The Company has low exposure to foreign exchange fluctuations with respect to cash, given the low cash balances. The Company sells its products internationally. Revenues could be impacted positively or negatively if the exchange rates in the currencies in which the Company sells its products fluctuates. The risk is decreased as customers are invoiced only in currencies that are considered to be stable in international markets. A portion of the Company's costs are from international suppliers and could be impacted by currency fluctuations. However, these requirements are not material to the business, and alternate sources of supply could be utilized if required. There is an impact on the net loss from the translation of the accounts receivable and accounts payable balances at the end of the year that are denominated in currencies other than the Canadian dollar. A 5% change in the exchange rate of those currencies relative to the Canadian Dollar would impact the net loss by approximately \$1,000.

The objective in managing foreign exchange risk is to monitor expenditure requirements in the short and medium term by currency and convert available cash to match the requirements. The risks are small enough that hedging would not be considered.

*Liquidity risk -*

Liquidity risk results from an excess of financial liabilities over available financial assets at any point in time. The Company's objective in managing risk is to ensure that it raises the amount of cash required to fund operating losses and to maintain cash to meet its other obligations. In this regard, the Company has had difficulty raising the level of cash required to meet its financial obligations as they have come due, and in some instances has entered into transactions to settle debts through the issuance of shares. Capital has been raised in 2019 and to date in 2020, and the Company must raise additional cash to

**MedX Health Corp.**  
**Management’s Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

fund its ongoing operating requirements. A portion of the cash raised was in the form of debt, due on a demand basis. The Company is in a position where its liabilities are greater than its assets.

	12 months		1 to 2 years		Total
Accounts payable and accrued liabilities	\$ 1,261,264	\$	-	\$	1,261,264
Long-term debt	-		40,000		40,000
Lease liability	7,014		-		7,014
Convertible debt	500,000		-		500,000
<b>At June 30, 2020</b>	<b>\$ 1,768,278</b>	<b>\$</b>	<b>40,000</b>	<b>\$</b>	<b>1,808,278</b>
At December 31, 2019	\$ 3,250,247	\$	-	\$	3,250,247

Refer to Note 8 of the interim condensed consolidated financial statements for additional discussions regarding the contractual maturities of financial liabilities.

**Related Party Transactions**

For the six months ended June 30, 2020, the Company incurred costs for management and Board compensation of \$243,890 (2019 - \$268,500). For the six months ended June 30, 2019, \$47,132 (2020- nil) of the expense recorded for share-based compensation related to officers and directors.

During 2020, \$39,000 owing to a management was repaid through subscriptions in a private placement.

See notes 8 and 9 for related party transaction disclosure relating to demand loans, convertible debt and stock options issuances.

Included in accounts payable and accrued liabilities as of June 30, 2020 is \$144,137 (December 31, 2019 - \$209,037) accrued for officers and directors of the Company.

**Subsequent Events**

On July 30, 2020, the Company completed the closing of a non-brokered private placement, with gross proceeds of \$312,000. The private placement consisted of the sale of 2,600,000 units at a price of \$0.12 per Unit. Each Unit consisted of one Common share and one Common share purchase warrant (“Warrant”). Each Warrant will be exercisable to acquire one Common share at any time for a period of two years, at an exercise price of \$0.20. The Company paid commissions of \$24,000 in connection with the placement.

Subsequent to June 30, 2020, 2,170,311 warrants, with an exercise price of \$0.20, expired.

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

On August 31, 2020, the Company granted 3,500,000 share options to consultants, with such options, which are vested, being exercisable to purchase one common share for a period of three years, at \$0.17.

The Company entered into a contract for services during 2020, whereby the Company will issue \$60,000 of shares over the term of the one-year contract, based on the price of the Company's shares as the services are provided. In this regard, the Company has issued 104,307 shares subsequent to June 30, 2020.

The recent coronavirus (COVID-19) pandemic has impacted and could further impact the Company's operations. A majority of the Company's staff are working remotely. To date, the Company has experienced a significant decrease in orders and revenue from its laser and light products, as a large proportion of the users of these products (rehabilitation and chiropractic clinics) were closed until recently. It is unknown how the short to medium-term demand will change as these clinics re-open. The Company has not been significantly impacted to date with respect to the supply of inventory, and the Company has been able to raise capital during the period. Given the uncertainty with respect to the timing and level of recovery from the pandemic on a global basis, the Company's ability to market its products through direct contact with customers may be difficult, and there remains uncertainty around the duration and its broader impact. The Company received an interest-free loan of \$40,000 under the Canada Emergency Business Account Program and has received \$123,910 to date in 2020 under the Canada Emergency Wage Subsidy.

**Risks and Uncertainties**

Although not exhaustive, the following list summarizes some of the key risks the Company faces, as well as, strategies the Company employs to manage these risks:

**Market, Operating and Competitive Risks -**

The market opportunity for the Company's products is dependent upon external factors such as the level of regulation of the medical device and diagnostic market, acceptance of the Company's products by the medical and healthcare profession and patient/consumer interest. As well, the Company has larger competitors who have larger customer bases and more significant financial and operating resources which may make it more difficult for the Company to compete in the marketplace.

**Technology Risks -**

The Company has invested significant resources in its products to ensure that they provide its customers with a competitive product offering relative to other suppliers in its industry. As a result of its financial position, the Company has not been able to confirm the existence of all of its intellectual property, and if the Company has not protected its intellectual property adequately or if it infringes third party intellectual property rights, it may lose its competitive advantage and incur significant costs and loss of reputation that could materially negatively impact its business. To manage this risk, the Company has

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

invested significant resources in product development and professional assistance to protect its intellectual property and avoid possible infringement of third party rights.

**Operating Losses -**

The Company has experienced operating losses since incorporation in 1999. As at June 30, 2020, MedX has a deficit of \$34,060,862. The Company may continue to incur additional losses and negative cash flows from operations and may never achieve profitability. Its success will depend mainly on its ability to generate enough operating income to achieve profitability and to develop its products and technology to capture meaningful market share. MedX may be unable to achieve profitability and this inability could have a material adverse effect on the Company's business, results of operations and financial condition.

**Capital Requirements/Financing -**

The Company relies on funding from internally generated revenues and external sources to provide sufficient capital to continue ongoing operations. There is no certainty that internal profits will be generated or that the Company will be successful in attracting external sources of capital. If MedX does not have sufficient capital to fund its operations, it may be required to curtail certain business operations.

**Foreign Exchange Rate Risks -**

MedX reports its financial results in Canadian Dollars. A substantial amount of revenues are derived from customers outside of Canada which are transacted in US dollars and other currencies. The Company has balances of accounts receivable and accounts payable denominated in non-Canadian currencies. If the non-Canadian dollar currencies fluctuate against the Canadian dollar, reported revenues, margins and results of operations will be impacted.

**Lack of Dividends -**

MedX anticipates that for the foreseeable future, the Company's earnings, if any, will be retained for use in the business, and no dividends will be paid. Declaration of dividends on the Company's common shares will depend on, among other things, future earnings, cash requirements and general business conditions.

**Key Personnel Risk -**

The future success of the Company is dependent upon the Company's ability to retain, recruit and train senior management, technical, sales and managerial personnel. Competition for qualified employees is intense and it may be possible that the Company is unable to retain and recruit qualified personnel in the future.

**Other Risks and Uncertainties -**

MedX is in the initial stages of commercialization of some of its products, facing corresponding risks. Future results may differ materially because of fluctuations in the Company's operating results due to changes in the cost of components used to manufacture the Company's products, changes in the regulatory environment for

**MedX Health Corp.**  
**Management's Discussion and Analysis**  
**For the Three and Six Months Ended June 30, 2020 and 2019**

medical devices in the United States, Canada, and internationally, changes in the Company's markets including competitors' new product introductions, and the acceptance in the market for the Company's product offerings.

COVID-19 -

The recent novel coronavirus (COVID-19) pandemic has impacted and could further impact the Company's operations and the operations of its third-party suppliers, customers, lenders and potential investors as a result of quarantines, facility closures, travel and logistics restrictions, a global economic slowdown and other limitations in connection with the outbreak.

**Forward-Looking Statements**

This Management's Discussion and Analysis contains certain "forward-looking statements." All statements, other than statements of historical fact, that address activities, events or developments that the Company believes, expects or anticipates will or may occur in the future (including, without limitation, statements regarding financial and business prospects and financial outlook) are forward looking statements. These forward-looking statements reflect the current expectations or beliefs of the Company, based on information currently available to the Company. Forward-looking statements are subject to a number of risks, uncertainties and assumptions that may cause the actual results of the Company to differ materially from those discussed in the forward-looking statements and, even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on the Company. Factors that could cause actual results or events to differ materially from current expectations include, among other things, changes in general economic and market conditions, changes to regulations affecting the Company's activities, and uncertainties relating to the availability and costs of financing needed in the future. Any forward-looking statement speaks only as at the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise. Although the Company believes that the assumptions inherent in the forward-looking statements are reasonable, forward looking statements are not guarantees of future performance and, accordingly, undue reliance should not be put on such statements due to the inherent uncertainty therein.
